Organized By

Indian Geotechnical Society
Jabalpur Chapter

ABOUT IGS JABALPUR CHAPTER:

IGS Jabalpur Chapter was established in 2004 and it was the 2nd in Madhya Pradesh. The chapter has organized four national conferences in year 2004, 2005, 2008, and 2011, and many webinars. IGS JC also formed students' chapter and organized so many activities and visits for the students.

ABOUT JABALPUR:

Jabalpur is the 3rd biggest town in Madhya Pradesh with a population of about 16 lakhs. It is climatically a tropic region. During the November the temperature remains about 10°C - 20°C. The town is well connected with Rail, Road, and Air. The town has many Historical, Natural, Religious, Heritage places to visit. Jabalpur is known as a Geological Museum of rocks. The town is famous worldwide for marble rocks in the river Narmada. One can make a plan to visit neighboring tourist places i.e. Khajuraho, Kanha Kisli, Bandhavgarh, Pench, Panchamari, Amarkantak, Ghughwa Fossil Park, Bargi Dam, Panna Tiger Reserve, surrounding Jabalpur.

INTRODUCTION OF THE THEME:

The theme of the national conference Advances in Geotechnical Engineering and Infrastructural Developments (AGE ID 2022) aims to bring together academics and Practitioners from across the world with a common interest in the field of Geotechnical Engineering. The conference will provide a platform to discuss the recent advancements and address the future challenges within the profession of Geotechnical and Civil Engineering. It will be an excellent opportunity for the exchange of information and ideas pertaining to the profession. Both academics and engineers are cordially invited to attend the Conference to share and exchange their knowledge. Several reputed experts have been invited to give keynote lectures during the conference. The conference aims to discuss the subject through following themes.

- Advance techniques of Geotechnical and Geological Investigations
- Ground Improvement, Soil Stabilization and Land Reclamation
- Geosynthetic materials and its uses
- Rock Engineering and Tunneling - Geological importance
- Importance of soil investigations for Infrastructural Developments.
- Geotechnical Environment Engg.
- Geotechnical Earthquake Engg.
- Transportation Geotechniques
- Landslides reasons and mitigation.
- Advanced softwares in Geotechnical Engineering
- Smart City: Smart Material and Smart Construction Techniques
